

Reflecting Back, Peering Forward – eHealth

A New Idea for eHealth

Presentation to the Australian Health Care Reform Alliance Summit

15 July, 2014

Canberra

John Scott, Director

Keys to Success

- **People at the centre**

Start with what they can and will do

- **A 21st Century Health Channel**

Enabling people to work together for improved outcomes

Operating across the whole health sector

21st Century Health Channel

Enables the health sector to:

- Satisfy basic communications anchored in *qualitative improvements* to information flows
- Leverage the capacity of people to work together to innovate and create new opportunities for investment
- Create new capability for the health sector

Conclusion and Invitation

- We have reach a crisis point in eHealth
- New opportunity to peer forward to a system with a new enabling infrastructure – a **21st Century Health Channel**
- Join with us to make this a reality
